The Observatory Ledger

Before you begin

Three visible cards form a short paper trail. Read the cards in order when their clues point you onward.

C01 Tab order

The ledger tabs are MOON, SUN and STAR. MOON comes before SUN. STAR comes after SUN. Write the three tab names in order.

C02 Ledger key

Use the tab order from C01. The ledger key is MOON = 7, SUN = 2, STAR = 9. Write the three digits in that order.

C03 Index direction

Find your three-digit entry in the index: 729 — EAST; 792 — NORTH; 279 — WEST; 927 — SOUTH. Write the direction beside the matching entry.
