

IdunSeed sowing plan for one week

Week: 2028-02-28 ... 2028-03-05

Last frost date used: 2028-04-15

Tasks in this week: 2

From	To	Seed / variety	Stage	Row type
2028-02-19	2028-03-04	Tomato (sample)	Indoor sowing	DEMO
2028-03-04	2028-03-18	Basil (sample)	Indoor sowing	DEMO

Reference rendering produced by scripts/generate_template.py from scripts/reference_dates.py. It is not the Google Sheets print output and is not evidence that Google Sheets printing works.

All five rows in this sample are marked DEMO. Their intervals are illustrative numbers, not agronomic advice.

A window overlaps the week when it touches any of the seven days, including the first and the last.
